Founded in 1988, Matt Rusek started Aksarben Sign & Graphic Supplies when screen-printed banners were the hot sauce in advertising. Eventually Matt grew the company to include custom blank banners, pressure sensitive vinyl and application tape. Boy, things seemed simple back then. Next came the inkjet printers, which came in like a storm. The company grew and stays ahead of the curve in an industry that is always changing and improving. You can count on us to give you the latest in sign and banner technology at a reasonable price and hometown customer service.

Green Products

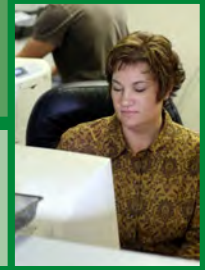

Help Aksarben Sign & Graphic Supplies save trees and reduce waste, by bookmarking or downloading the electronic catalog. Peruse the catalog onscreen (search using PDF's search engine) or view it on our website – www.SignAndGraphicSupplies.com. Print only the pages you need!

A note about color in this catalog:

Please note that the color swatches in this catalog are limited by the 4 color printing process, and that it would be impossible to match the actual colors without using spot colors, which would be really expensive...so please appreciate the time we spent trying our best to make the colors as close as we could, and be happy when your red is actually **brighter** and more vibrant than the swatch you saw while ordering. :o) And if you're printing this catalog from a PDF, for the love of Pete, don't forget to get your color management. Thank you!

Digital Media A wide variety of types

We carry a huge variety of media. Need something you don't see here? Give us a call, or check our website for products not seen here:

Banner Material Roland

20mil Blockout Scrim Banner

This premium-quality two-sided blackout 20 oz. scrim banner uncoated vinyl has a smooth surface for superior printing on either side. It can be hemmed and grommeted, and the high tenacity polyester base cloth makes it extremely dimensionally stable for a wide variety of indoor and outdoor applications. This Roland product is certified flame retardant.

ESM-BOSB-66-54...54" x 66ft.....\$1.04/ft².....\$307.99

18mil Blockout Banner Vinyl

This double-sided 19 oz. uncoated scrim banner vinyl is a great all-purpose banner product for solvent ink printing a variety of indoor and long-term outdoor applications (up to 3 years outdoors). It is a high-quality coated banner (versus laminated banner) with a great white point, and can be hemmed and grommeted to finish, and wind slit as well.

ESM-BBV-66-54 .54" x 66ft .. \$0.78/ft²..\$231.99

14mil Light Weight Banner Vinyl

This single-sided 13 oz. uncoated scrim banner vinyl is a great all-purpose banner product for solvent ink printing a variety of indoor and long-term outdoor applications (up to 3 years outdoors). It is a high-quality coated banner (versus laminated banner) that is very flexible with a great white point, and can be hemmed and grommeted to finish, and wind slit as well.

ESM-LBV-66-3030" x 66ft.....\$0.58/ft².....\$95.99

ESM-LBV-66-5454" x 66ft.....\$0.58/ft².....\$171.99

14mil Premium Glossy Reinforced Banner

This premium-quality 14 mil glossy scrim banner vinyl was specially prepared for our solvent inks. It can be hemmed and grommeted and offers a waterproof solution for outdoor applications (depending on weather and environmental conditions and the specifics of mounting). Large banners displayed outdoors should be tested for wind resistance depending on the required durability and longevity of the application.

SCM-SPVCB-66-50 .50" x 66ft.....\$1.07/ft².....\$294.39

18mil Flame Retardant Scrim Banner

This premium-quality one-sided 16 oz. scrim banner uncoated vinyl is specially treated and certified flame retardant. It has a high tensile strength, is tear resistant, and is perfect for both indoor and outdoor applications. It is dimensionally stable and can be hemmed and grommeted for a superb finished look. Large banners displayed outdoors should be tested for wind resistance depending on the required durability and longevity of the application.

ESM-FRSB-66-54 ...54" x 66ft.....\$0.86/ft².....\$255.99

Adhesive Backed Vinyl Roland

3mil Clear Calendered Vinyl (ESL only)

This new improved version of our high-quality 3 mil clear adhesive-back uncoated vinyl has an optically clear adhesive and a clear polyethylene liner. It's designed for many types of graphic applications, including use as an overlaminated film. It is excellent for application to regular surfaces, and prints are durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration. If used as an overlaminated film, pressure is all that is required for adhesion.

ESM-CCV2-75-30...30" x 75ft.....\$0.27/ft².....\$51.59

3mil Clear Calendered Vinyl (EX)

This high-quality 3 mil clear adhesive-back uncoated vinyl is designed for many types of graphic applications. It images nicely in a variety of print modes and has a permanent adhesive. It is excellent for application to regular surfaces, and durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration.

ESM-CCVP-75-30...30" x 75ft.....\$0.33/ft².....\$63.99

ESM-CCVP-75-54...54" x 75ft.....\$0.33/ft².....\$111.99

Adhesive Backed Vinyl (con't)

3mil Glossy Calendered

This high-quality 3 mil glossy adhesive-back uncoated vinyl is designed for many types of graphic applications. It images nicely in a variety of print modes and has a permanent adhesive. It is excellent for application to regular surfaces, and durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration.

ESM-GCVP-75-30 ..30" x 75ft..... \$0.34/ft² \$63.99
ESM-GCVP-75-54 ..54" x 75ft..... 0.34/ft² 111.99

3mil Matte Calendered

This high-quality 3 mil matte adhesive-back uncoated vinyl is designed for many types of graphic applications. It images nicely in a variety of print modes and has a permanent adhesive. It is excellent for application to regular surfaces and durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration.

ESM-MCVP-75-30 ..30" x 75ft..... \$0.34/ft² \$63.99
ESM-MCVP-75-54 ..54" x 75ft..... 0.33/ft² 111.99

2mil Premium Cast

This premium-quality 2 mil glossy cast uncoated vinyl has a special permanent removable adhesive that is as durable but easier to apply and remove than traditional permanent adhesives. It is extremely durable and conformable to rivets and irregular curves or indentations, but lamination is highly recommended for fleet applications or to protect images from abrasion and chemical deterioration.

ESM-PCV2-80-30 ...30" x 80ft..... \$0.90/ft² \$179.99
ESM-PCV2-80-54 ...54" x 80ft..... 0.90/ft² 319.99

6mil Premium Reflective

This premium-quality 6 mil reflective cast uncoated vinyl has a permanent adhesive so it is durable for a variety of graphic applications including vehicle graphics. It is very durable and conformable to irregular curves or indentations, but lamination is

highly recommended for vehicle applications or to protect images from abrasion and chemical deterioration.

ESM-PRV2-50-30 ...30" x 50ft..... \$2.30/ft² \$287.99
ESM-PRV2-50-48 ...48" x 50ft..... 2.16/ft² 431.99

7mil View-Through

This updated version of our popular perforated 7 mil adhesive-back uncoated vinyl is designed for window graphics that require one-way view capability, including vehicle window graphics. While the product images well, care should be taken to avoid over-saturation as ink wells in the holes. This product is designed for flat or curved window surfaces with clean removal after 1 year (depending on environment and application). It is durable both laminated and unlaminated, although lamination is recommended for protection against abrasion and chemical deterioration and to keep dirt and debris from filling the holes.

ESM-VTV2-50-24 ...24" x 50ft..... \$2.36/ft² \$235.99
ESM-VTV2-50-53 ...53" x 50ft..... 2.28/ft² 503.99

3.5mil Water-Fast Matte

This water-resistant adhesive-back vinyl is a 3.5 mil calendered vinyl with a semi-permanent adhesive. This product exhibits very good image quality and the matte surface eliminates glare. Ideally suited for long-term indoor and medium-term outdoor applications, it will provide outdoor durability of 3-6 months without lamination. Not recommended for application over rivets, irregular curves or indentations.

PCM-WMWV-40-50 50" x 40ft..... \$1.02/ft² \$170.39

3.4mil Economy Calendered

This economy 3 mil glossy vinyl has a permanent acrylic adhesive and is designed for many types of inexpensive graphic applications. It images well, but it is not conformable to rivets and irregular curves or indentations. This product is not de-

signed for true long-term outdoor-durable graphics. Lamination is recommended for images that need protection against abrasion or chemical deterioration.

SCM-ECVP-75-30 ...30" x 75ft..... \$0.42/ft² \$79.99
SCM-ECVP-75-54 ...54" x 75ft..... 0.42/ft² 140.99

2mil Premium Cast

This premium-quality 2 mil glossy cast vinyl has a special permanent removable adhesive that is durable but easier to install and remove than traditional permanent adhesives. This vinyl is conformable to rivets and irregular curves or indentations, with **Avery Dennison Easy Apply Technology**.

SCM-PGVP-75-54 ..54" x 75ft..... \$1.30/ft² \$244.95

3mil Clear Adhesive Vinyl

This high-quality 3 mil vinyl has a fairly optically clear adhesive and is designed for many types of graphic applications, including stickers and decals, backlit graphics, counter and other display graphics. It images well in a variety of print modes and has a semi-permanent adhesive for applications that do not require a true permanent adhesive. It applies beautifully to smooth and regular surfaces and is durable both laminated and unlaminated; although lamination is recommended for protection against abrasion and chemical deterioration.

SCM-SPVCT-66-50 .50" x 66ft..... \$0.71/ft² \$196.47

4mil Opaque Heat Transfer Material

This garment transfer material is an opaque white media designed to be print and cut for heat transfer to light or dark garments, either cotton or cotton blend. Finished transfers offer terrific color with good handling. Suitable pigment, dye and mild solvent inks.

PCM-HTM2-50-24 .24" x 50ft..... \$1.50/ft² \$149.99
PCM-HTM2-50-50 .50" x 50ft..... 1.43/ft² 297.75

3mil HeatSoft™ Polyester Transfer Mask

Polyester hot transfer mask for heat transfer appliqué material, designed to lift graphic from its backing liner sheet without removing ink of the printed surface, and intended to release shortly after pressing. Acts as a protective barrier from the heat press.

PGM-PTM-50-24 ...24" x 50ft..... \$0.56/ft² \$56.00
PGM-PTM-50-50 ...50" x 50ft..... 0.54/ft² 112.00

Don't Forget the Laminates

Protect your Roland printed images from the elements... Check out our wide array of liquid and roll laminates.

Paper Roland

7.5mil Solvent Glossy Paper

This 7.5 mil glossy paper was specially coated for solvent ink printing. It has a good white point and gloss level for a wide variety of indoor graphic applications. A heat assist of 30-35°C (86-95°F) is helpful with this product, but care should be taken not to heat the paper too aggressively.

ESM-SGP2-100-30 ...30" x 100ft..\$0.26/ft²....\$63.99
ESM-SGP2-100-54 ...54" x 100ft...0.25/ft².....111.99

7mil Premium Matte Paper

This product is heavyweight and affordable, and an excellent choice for color graphics applications including posters, point of purchase displays, trade show and board room graphics. The high opacity and exceptional white point, along with this product's ability to handle heavy ink load, assure a quality reproduction. When lamination or encapsulation is part of the application, this premium matte product can reduce your cost with very little loss in image quality. This material prints well with pigment and mild solvent inks.

PCM-PMP3-100-30.....30" x 100ft...\$0.32/ft².....\$79.99
PCM-PMP3-100-42.....42" x 100ft....0.35/ft².....122.99
PCM-PMP3-100-50.....50" x 100ft....0.32/ft².....131.99
PCM-PMP3-100-60.....60" x 100ft....0.32/ft².....159.99

9mil Glossy Photobase Paper

This high-quality 9 mil glossy photobase paper was specially prepared for solvent ink printing. It has an excellent white point and gloss level for a wide variety of graphic applications. Designed for indoor use, prints can easily be mounted and laminated (finished) with pressure-sensitive products. When printing with a machine with heating elements, a heat assist of 30-35°C (86-95°F) is helpful, but care should be taken not to heat the paper too aggressively.

SCM-GPPG-131-50..50" x 131ft..\$0.67/ft²..\$367.99

Film Roland

3mil Clear Solvent Film

This high-quality 3 mil clear polyester film has a special topcoat for mild solvent ink printing. It images well for a variety of applications including overlays and other clear film graphics. It is designed for excellent indoor durability although care should be taken when handling the material.

ESM-CSF-66-4848" x 66ft...\$0.73/ft²....\$191.99

6mil Premium Backlit Film

This unique film is specially formulated for mild solvent ink printing. It is a medium weight 6 mil film designed to be front print and displayed either front lit or backlit for a variety of display and trade show graphic applications. This material has an excellent indoor longevity but should be mounted and laminated with high-quality pressure-sensitive adhesives.

ESM-PBF-98-3030" x 98ft...\$0.75/ft²....\$183.99
ESM-PBF-98-5454" x 98ft....0.75/ft².....327.99

5mil Water-Fast Backlit Film

This backlit film offers vibrant color at an affordable cost-per-square-foot for dye or pigment ink printing. It performs very well in conventional backlit applications and its water-resistant [water-fast] properties allow it to be used for some outdoor applications without concern for print deterioration from condensation. This product is designed to be reverse-imaged on the second surface and therefore, requires no lamination for standard backlit applications. It can also be mounted and laminated with high-quality pressure-sensitive adhesives.

PCM-WBF2-100-5050" x 100ft..\$0.67/ft²...\$279.99

5mil Hi-Gloss White Film

If the Hi-Fi JET has a signature media, this is it. Brilliant white film with exceptional dot definition for highest resolution printing makes this a must for photography and high profile presentations. Additionally, the product is water-resistant [water-fast] and exhibits quick dry properties although care should be taken when handling the product. This material was developed for use with aqueous inks.

PQM-PETG-66-41 .41" x 66ft...\$1.42/ft²....\$319.99
PQM-PETG-66-52 .52" x 66ft....1.40/ft².....\$399.99

Fine Art Roland

18mil

Matte Artist Canvas

This medium weight matte topcoat cotton/polyester blend canvas offers an excellent white point and images well in a variety of print modes. It is designed to be dry to the touch immediately after printing, and offers exceptional water-resistant properties and excellent longevity and durability. Auto sheet cutting is not recommended with this media.

PCM-MAC7-40-24 24" x 40ft \$1.50/ft² \$119.99

PCM-MAC7-40-42 42" x 40ft 1.51/ft² 211.99

PCM-MAC7-40-52 52" x 40ft 1.50/ft² 259.99

PCM-MAC7-40-60 60" x 40ft 1.50/ft² 299.99

23mil

Tuscan Rag Bright White

This 310 gsm paper is a wonderful bright white with exceptional smoothness for excellent color and black & white photographic output. It is 100% cotton fiber and mould-made and is PH neutral, acid free and lignen-free. This heavier weight paper is specifically engineered for wide-format inkjet printing and is water-resistant [water-fast] when used with our pigment ink set. When printing on the Hi Fi JET or CAMMJET, use the highest head position to produce best quality results.

PQM-TRBW-40-47 47" x 40ft \$1.26/ft² \$198.39

28mil

Solvent Satin Canvas

Brightwhite, top-coated material designed specifically for Eco Sol Max[®] inks. Low-glare finish, superior color brilliance. Moisture resistant, poly/cotton blend can be stretched without cracking. Ideal for long term display.

ESM-SSC-75-30 ... 30" x 75ft \$1.00/ft² \$187.99

ESM-SSC-75-54 ... 54" x 75ft \$1.01/ft² 339.99

Solvent Gloss Canvas

Same as the ESM Solvent Satin Canvas above, but offers a high-sheen finish. As with the satin, gloss canvas is ideal for art décor, fine art reproduction, photography backdrops, and murals.

ESM-SGC-75-30 ... 30" x 75ft \$1.00/ft² \$187.99

ESM-SGC-75-54 ... 54" x 75ft \$1.01/ft² 339.99

Specialty Roland

14mil

Premium Solvent Glossy Banner

This premium-quality 14 mil glossy scrim banner vinyl was specially prepared for our solvent inks. It can be hemmed and grommited and offers a waterproof solution for outdoor applications (depending on weather and environmental conditions and the specifics of mounting). Large banners displayed outdoors should be tested for wind resistance depending on the required durability and longevity of the application.

Overlaminates Film Roland

3mil

Calendered Luster Film

This high-quality 3 mil calendered vinyl overlaminates film is perfect for both indoor and some outdoor applications requiring less flexibility and durability than cast vinyl film. It offers a unique semi-gloss or luster look for glare-reduction. Performance is guaranteed for up to 25 months outdoors depending on the substrate and ink type used, either Roland pigment or mild solvent inks. This is a pressure-sensitive film that is also suitable for laminating other Roland media for added protection and durability.

PGM-OLCL-150-54 54"x150ft \$0.38/ft² \$255.99

2mil

Premium Cast Glossy Film

This premium-quality 2 mil vinyl overlaminates film is the perfect solution for all types of indoor and outdoor applications. It offers generous flexibility with a high gloss finish for maximum impact. Performance is guaranteed for up to 60 months outdoors depending on the ink type used, either Roland pigment or mild solvent inks. This is a pressure-sensitive film that is very durable and flexible, and is therefore suitable for laminating all other Roland media for added protection and durability.

MetaMark® Calendered Vinyl

MD5 Digital Vinyl

MetaMark MD5 is a premium quality polymeric calendered vinyl, which has been specially engineered to give outstanding performance with solvent inkjet printers. The MetaMark MD5 allows the consistent production of exceptional print quality on a material with an exterior life of 7 years, and which is suitable for application to most surfaces.

MD5-WHT-GL-30, Gloss... 30" x 164 ft... 45¢ ft² ... \$183.00
MD5-WHT-GL-54, Gloss... 54" x 164 ft... 45¢ ft² 329.00

SPMMAG030-2450N 24" x 50' 1.17 ft² 117.00

*(Check with your printer specifications prior to use...it be thick!)

IMPORTANT Magnetic Prep & Care Instructions

It is very important to make sure the vehicle surface is clean and moisture free before applying any magnetic. For newly painted vehicles allow 90 days before applying magnetic. Allow at least 48 hours of cure time for waxed surfaces. When applying make sure the magnetic is flat against the entire surface. (No air pockets). Avoid horizontal metal surfaces exposed to direct sunlight; temperatures exceeding 160 degrees. It is recommended that you that you remove and clean both the magnetic sign and the vehicle surface on a daily bases. Failure to do so could result in permanent damage.

Frog Juice

What is Frog Juice? Frog Juice is a relative to automotive clear and is a very glossy liquid laminate. It is totally synthetic and will not yellow, and does not require a

hardener or catalyst. It achieves maximum hardness slowly over a period of 30 days, yet is ready to handle and place outdoors in 30 minutes.

NOT FOR USE WITH DIGITAL BANNER MATERIALS.

CAUTION: Always test any Liquid Laminate in an inconspicuous area before using. And for the love of Pete, read the directions!

Sunscreen Clear 7000

Multi-purpose clear coat that is a UV protectant and designed to be used over digital printing. Can be applied directly to vinyl.

FJ7000-CL-QT Solvent-based \$27.00
FJ7000-CLWB-QT Water-based 27.00

Semi-Gloss Spray for Digital Prints

Similar qualities as the Clear 7000 with a semigloss finish. One can has the coverage of 25-40 ft². Solvent-based.

FJ7000-CL-SPRAY 12oz Aerosol \$8.95

(NOTE: Aerosols cannot be shipped via Air-Freight)

Lamination Film

3mil Calendered Luster Film

This high-quality 3 mil calendered vinyl overlamine film is perfect for both indoor and some outdoor applications requiring less flexibility and durability than cast vinyl film. It offers a unique semi-gloss or luster look for glare-reduction. Performance is guaranteed for up to 25 months outdoors depending on the substrate and ink type used, either Roland pigment or mild solvent inks. This is a pressure-sensitive film that is also suitable for laminating other Roland media for added protection and durability.

PGM-OLCL-150-54 54'x150ft..... \$0.38/ft²..... \$255.99

2mil Premium Cast Glossy Film

This premium-quality 2 mil vinyl overlamine film is the perfect solution for all types of indoor and outdoor applications. It offers generous flexibility with a high gloss finish for maximum impact. Performance is guaranteed for up to 60 months outdoors depending on the ink type used, either Roland pigment or mild solvent inks. This is a pressure-sensitive film that is very durable and flexible, and is therefore suitable for laminating all other Roland media for added protection and durability.

Eliminate Static, Improve Printing!

Wide Format StopStatic™ Kit

StopStatic™ is a trademark of Alpha Innovation, Inc.

Contains 1 roll of Static Elastic™ (total of 36', 11 meters fully extended) and 6 mounting Magnets. **The Static Elastic™ removes static from materials before they enter the print area, eliminating dust attraction and printing defects such as threading and fogging.**

WFSK.....\$129.00/kit

(Magnets attach Static Elastic™ to machine)

Directions:

1. Place Static Elastic™ across the sheet as shown and ground it to the bare metal of the machine.
2. Adjust the distance from the charged sheet or web from direct contact to up to two inches away.

STOP STATIC.COM

Static Elastic™ can be placed on either side of the sheet after printing, to prevent dust.

Roland Vinyl Cutters

Roland EGX-350

Easy to Use Desktop Engraver

Create beautiful custom signs and nameplates. Or produce design templates for heat pressing rhinestones onto t-shirts, handbags and other apparel items. The EGX-350 easily handles a wide variety of materials, including plastic, acrylic, aluminum, stainless steel, brass and wood. Unlike laser engravers, the EGX-350 preserves the original colors and textures of wood, brass and artificial marbles.

EGX-350..... Call For Pricing **\$5795.00**

EGX-350 Accessories..... Call For A List

Roland R-WearStudio Software

- Drawing tools for drawing print objects, engrave objects and cut lines
- Automatic rhinestone arrangement
- Includes a library of approximately 500 Swarovski rhinestones
- Allows you to calculate and control rhinestone inventory
- SFEdit2 stroke font editor software which allows the conversion of outline to stroke

Inks Roland

Eco-Sol Max Ink

ECO-SOL MAX for the Roland SoLJET and VersaCAMP range features significant new enhancements including faster drying time, improved scratch resistance, higher density, wider colour gamut and performance with both coated and uncoated substrates including 150 types of low-cost uncoated media. Low-maintenance ECO-SOL MAX is virtually odourless and does not require any special ventilation or environmental equipment. Choose ECO-SOL MAX for crisp graphics that last up to three years outdoors without lamination.

- Quick drying time
- Better scratch resistance
- Wider color gamut
- Virtually odorless
- 3-yr outdoor (w/o lamination)
- Eco-friendly

EcoXtreme solvent ink (AI3) for the Roland AJ-1000 AdvancedJET was developed for industrial-strength performance. It comes in 6 vivid colors (CMYK+LcLm) for exceptional gamut, high color density and unmatched durability, even in high-speed modes.

EcoXtreme LT ink (AI2) performs across a wide range of coated and uncoated media. Its rugged scratch, alcohol, water and UV resistance delivers vibrant prints that last up to 3 years outdoors.

Not suitable for Roland SoLJET or VersaCAMP.

Thermal Transfer Ribbon

Quality ribbons for Gerber Edge FX® printers.

ZeroNine offers thermal transfer ribbons specifically for use on the Gerber EDGE® FX printer. ZeroNine's FX refill ribbons are wound onto 1.5" diameter cores and are available in a range of NexGen and Legacy colors.

When you order our FX refill kits, we send the feed and take up core along with the endcaps pre-

inserted. This convenes gives our customers a true drop-in solution into the OEM FX cartridge. Our FX refill kits are direct replacements from the OEM ribbons and are intentionally designed to work in the EDGE® FX Caddy supplied by the OEM.

Part numbers that begin with a G use our new NexGen Ribbon Chemistry. Part numbers that begin with an F use our original Legacy formulation. Feel free to contact us if you have any questions.

Services

Equipment Installation

Take comfort in knowing when Aksarben installs a Roland printer for your company, you will receive a professional set up and thorough training in printer maintenance and functionality as well as complete training in the Roland VersaWorks RIP. Be as self reliant as you can be with tricks of the trade and set up features, provided by Aksarben Sign & Graphic Supplies, that will allow your company be more productive.

Printer Repair

Nebraska's original Roland dealer! We have 2 Roland Certified Service Technicians on staff with over 12 years of combined training and experience, servicing Roland equipment; Current Printers and Printer/Cutters as well as Legacy models.

Cutter Repair

Aksarben Sign & Graphic Supplies is a Roland Certified Cutter Service Center. Send your Roland Cutter to Aksarben. We will return your cutter to the original working condition of the reliable Roland you have grown to trust.

AKSARBEN Custom Sewn Blank Banners

Check out our Web Site for the latest colors and prices available.

We also do Custom Sign Covers, Break Away Banners, Pennant Banners & More! Let the Pros finish your Digital Banners as well! No quantity is too large or too small. With over 22 years experience, our staff can provide a fast turn around time while taking the best care of your Digital Banners. Call for quotes.

Customize Size Cut to YOUR widths!

Have a custom width? Let us know and we will custom cut any of our rolled goods; banner, pressure sensitive vinyl or tape to your specified sizes. How about sheet substrates? Call an Aksarben Sign & Graphic Supplies representative to discuss your converting specifications.

Grommet Services

Custom grommeting can be done in a portion of the time as hand grommeting, with our self-feeding pneumatic grommet machines.

Lamination is a GREAT way to protect and present an image.

Did you know that...

- Over-laminates should match the media. Vinyl to vinyl, polyester to polyester.
- Over-laminates should be the same thickness, or thinner, than the imaged product.
- A UV laminate can extend the image life by 3 to 4 times.
- Cloudy lamination is a result of insufficient heat.
- Silvering is caused by an adhesive not wetting out.
- Over-laminating one side with too much pressure can cause the image to curl toward the laminated side and the edges to lift.
- Leaving unprinted media leader in front of your image will provide the opportunity to look for wrinkles prior to the image lamination.
- Wait at least 1 hour before trimming the laminate. Media bond will strengthen over time.

For more Lamination Tips visit this link:

http://www.magicinkjet.com/files_technical_bulletins.html

Tips for Pressure-Sensitive Adhesive Applications

- Ensure the desired surface is cleaned, free of dust, dirt, and cleaner residues.
- Painted metal, glass, and art mounting boards should be cleaned with glass cleaners or isopropyl alcohol (IPA).
- Apply to smooth flat surfaces such as stainless steel, glass, acrylics, ABS, polycarbonate, Plexiglas®, Fome-Cor®, and Sintra®.
- Always pretest your application surface prior to installation.
- Trim the print ½" from the edge or use a commercial edge sealer.
- Prints may be protected with an over-laminate; however, over-laminating one side may cause the product to curl towards the laminated side.
- Dry application is recommended.
- PSA removal may require physical scraping or use of solvents.
- Insert a sharp knife or razor under a corner of the graphic and peel the graphic carefully.
- Remove residue by picking with the adhesive side of the removed graphic.
- Any remaining residue may be removed by using a mild solvent such as isopropyl alcohol or ethanol.

Training

For Class Information, Dates and Locations:
Call Aksarben Sign & Graphic Supplies at 800-646-6064

Roland UNIVERSITY

Born to Wrap Workshop

Two-day workshop. Learn firsthand from Roland specialists and industry professionals to take a vehicle graphics job from design to installation.

- Important points of any vehicle graphic design
- File setup and graphic design
- Color matching and print/cut/laminate workflow
- Job estimation and real-world costs
- Sales & advertising techniques
- Vehicle preparation and application techniques
- Hands-on graphic installation & removal

X-Rite Roland Color Workshop

One-day workshop will teach clear step-by-step color management strategies to increase your productivity, avoid common pitfalls, and experience better color output than ever before. Get rich, dense colors and flawless image quality every time you print with your Roland wide-format inkjet.

This course will specifically focus on the fine points of color management in conjunction with the Roland VersaWorks' color management engine.

- Color theory and digital printing basics
- Workflow color management
- Unique RIP color management settings
- Matching color between printers and media
- Color measurement devices and custom profiles
- Display profiles for soft proofing

Productivity Workshop

The Roland Productivity Workshop is designed for users of Roland's VersaCMM, PRO II or PRO III print or print/cut devices who want an in-depth training on how to increase productivity, maintain their printer, and prolong the performance of their versatile Roland equipment.

This action-packed one day event will help you establish a consistent color workflow between your graphics applications and Roland VersaWorks, ultimately maximizing the output performance of your solution - Roland VersaWorks and your Roland printer or printer/cutter.

- Machine service, maintenance and calibration
- Consistent color workflow using VersaWorks and: Adobe Photoshop, Adobe Illustrator, CorelDraw, FlexiSign, and SignLab.
- Roland VersWorks Overview / Features
File preparation and requirements, Media Profiles, Rendering Intents, Media Capabilities, and Advanced features.
- Printing / Laminating / Cutting
- Media properties, application, costing, tips

Workshop Requirements:
Roland printer or printer/cutter

Matt Zarben Helpful Hints

File Formats and Color Profiling

Do you have questions about vector vs. raster, printer color profiles, or other common production issues? Call Aksarben Sign & Graphic Supplies and talk to a tech.

Vector

100% EPS

Enlarged 600% prints at any resolution

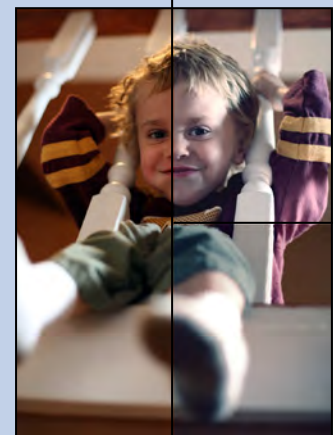

Raster

100% 300 dpi

600% becomes 50 dpi

Correct Profile

Incorrect Profiles

Banner Finishing for Every Application...

We specialize in custom banners & signs

A Hem

1" fold over hem with no reinforcement. Designed for indoor or wall mounted installations.

B Rope

Three-ply twine is sewn into the top and bottom of the banner with standard 5' ties for easy securing.

C Webbing

Flat 1" woven polypropylene webbing is sewn into all four seams of the banner with 5' extensions for securing. A much stronger alternative to rope.

D D-Rings

Same as webbing style 'C' but with welded steel, zinc plated D-Rings in the corners for attaching bungee cords or rope.

E Webbing Reinforcement

Webbing sewn into all four seams provides an extra strong finish with no extensions.

F Reinforced Corners

Triangle of heavy-weight material is hemmed into banner corners to provide extra strength where it is most needed.

G Pole Pockets

A fold in the material is hemmed creating a 1^{3/4}" opening so the banner can be hung from a standard 1/2" conduit.

H Weld

Intense heat is used to "weld" a heavy-weight material onto the edges of the banner creating a more durable finish than the standard hem.

Custom Sewing
Proven

Customize...

Our banners are finished with brass grommets, color matched thread and double-lock stitching for appearance and strength that surpasses the competition.

We also do custom sign covers, break away banners, pennant banners and more!!!

Check out our website for the latest colors & prices available.

Ready Banners

130z Banner Blanks

Each Banner Blank is double-lock stitched, grommeted and individually boxed for easy stocking and resale. **White only.** Sizes not listed available on request.

	6'	8'	10'	12'
24"	\$12.75	\$16.75	\$20.75	\$24.80
36"	17.50	23.25	28.75	34.50

Specialty Vinyl EFX Decorative Series

- Suited for general purpose signage applications.
- Both series of films resist most marring & staining.
- Cuts easily using computer plotter, steel rule or thermal die methods, shear or rotary blade cutters.
- Extruded 3 mil rigid PVC metallized film

- Both the Durable Series and the Decorative Series of films can be printed using vinyl screen print inks, thermal transfer systems, solvent-based inkjet printers and hot foil stamp devices.

3mil HeatSoft™ Polyester Transfer Mask

Polyester hot transfer mask for heat transfer appliqué material, designed to lift graphic from its backing liner sheet without removing ink of the printed surface, and intended to release shortly after pressing. Acts as a protective barrier from the heat press.

PGM-PTM-50-2424" x 50ft	\$0.56/ft ²	\$56.00
PGM-PTM-50-5050" x 50ft	0.54/ft ²	112.00

Heat Transfer Presses

The **Digital Knight** line of these commercial digital presses boast heavy steel welded frameworks built to hold up over many years of heavy use and stress. At the heart of these machines is a state-of-the-art digital microprocessor control and proprietary heat control circuit field tested beyond 10 million heating cycles.

Overall, the extremely accurate control and intuitively easy to use interface makes for a reject-free production environment.

Measuring & Cutting Tools

KEENCUT

Excalibur 5000 Sheet Material Cutter

EXCALIBUR 5000

Standard inexpensive blades can be changed in seconds, with no tools

Designed to cut all the sheet materials used in the modern picture framing and visual communications industries, the Excalibur range cuts vertically, providing the ultimate in space saving convenience.

- Cuts sheet materials easily, cleanly and accurately
- Super-grip clamp holds thick materials at any angle
- Clear rule along the cut line for easy alignment
- Smooth sliding counterbalance for easy working

KE02 \$2,692.00

Cutter Bars

Simple no-nonsense cutter bars offer an ingenious cutting solution that is safe for both product and people.

- Blade depth adjustment
- Safely retracts the blade when not in use
- Standard utility blades will cut to a depth of 10mm
- Special long reach blades will cut 13mm (0.5")
- Patented linear bearings guaranteed for 20 years
- Full length silicon rubber grip strips provides protection for the most sensitive of surfaces
- Easily stored safely on the wall brackets provided.
- Optional surface mounted "Lift & hold mechanisms" so you can easily align large work single handed

TAPEHEM-2.....	2" x 36 yd	20.98

Ultra High Bond (UHB) Tape

36 yard roll, 2-sided, extremely high tack tape.

Structural grade tape is comprised of solid acrylic polymer, coated on both sides with a high-tack acrylic adhesive, and white polyethylene release liner. Provides a superior, permanent bond between a wide variety of substrates. Solid acrylic core gives tape superior strength; it can be easily applied and cleanly cut, yet is flexible, moldable, compressible & conformable to intricate shapes. Tape will bond to most surfaces, but thorough evaluation is recommended when bonding low energy surface material such as PVC, ABS, PE, PP. Not recommended for bonding Teflon™, Tedlar™, Silicone, or EPDM.

DC-UHB45-3/4	3/4" x 36 yd.....	\$49.95
DC-UHB45-1	1" x 36 yd	54.95

Foam Tape

1/16" thick, Double Coated Polyethylene Foam Tapes.

A high density cross linked polyethylene foam tape coated on both sides with a high performance rubber-based adhesive. Excellent quick-stick sealing with high shear properties. Good resistance to humidity, mild acids, oil and grease. Excellent conformability and compressibility. Adheres well to textured and irregular surfaces. Can be easily die-cut.

DC-PEF06R-1/2.....	1/2" x 36 yd.....	\$18.95
DC-PEF06R-3/4.....	3/4" x 36 yd.....	24.95

QUICK TRANSFERS

Tape-Owner

- Inexpensive time-saving solution
- Bubble-free pre-mask application!
- Matt Zarben Approved
- Cores not included

TAPE-OWNER..... \$25.00

Green Mask

Premium Safe Tack Masking Tape.

For use on regular, semi-delicate and delicate surfaces. Recommended where the tape needs to be removed up to seven days after application. For masking application where UV resistance is required. Designed to resist most paint and lacquer. Adhesion remains stable over time. Removes cleanly even after long application. Paper provides excellent conformability and tear resistance. Medium quick stick, light adhesion.

TAPEMASK-1.....	24mm (~1") x 60 yd	\$3.99
TAPEMASK-2.....	48mm (~2") x 60 yd	7.98

Strapping Tape

General Purpose Filament Tape.

To hold pharmacy cabinet frame together. For reinforcing baker's trays. As a bond breaker in the concrete industry. Palletizing of boxes. Strapping rods, molding, tubes plywood without danger of scratching, staining or damaging. Reinforcing boxes, protecting contents from pilferage. Benefits: Strong, waterproof, high tack, excellent shear, little stretch.

TAPESTRAP-1..... 24mm (~1") x 60 yd..... \$2.25

PoleTape

Adhesive for Pole Pocket Banners and Splicing Media

POLETAPE 1"x200ft..... \$79.00/rl

SIGN FRAME AND STAKE

America's Looking For The **GREEN** Alternative

USA Sign Frame and Stake offers innovative, high-quality and environmentally-responsible designs that are attractive and functional products at competitive prices. Engineered to be sturdy, durable, inexpensive, and light-weight, each design offers integrated features that a welded-metal version simply can't match.

USA Spider Stake

- Corrugated Plastic Step Stake. Replacement flimsy "H" wire stake.
- Fresh contemporary appearance
- Penetrates hard ground much easier than a thin H-wire.

USA-SS01 each.....79¢
USA-SS01-50 50pc/55¢ ea..... \$27.50

USA Car Window Clip

- Ambient light measurement for verifying standard conditions
- Easy-to-use, step-by-step software interface—no extra manuals needed

- New “how to video” for scanning test charts and “optical beep” added for even greater usability
- Laptop mode for better, more neutral laptop LCD profiles
- Luminance settings for matching multiple monitors to each other
- Easy upgrade functionality
- Upgradeable to full automation with **i1iO** scanning table
- One push button monitor calibration
- USB powered.
- Carrying case included.

i1DES-LT \$995.00

Color-Checker Chart

24 scientifically prepared colored squares representing common natural objects, helps match colors under any illumination.

i1-CCC \$74.00

ColorChecker Gray Scale

Provides reference values to check and adjust colors, faster and easier.

i1-CCGS \$59.00

SIGNLAB for **VersaWorks™ Edition**

NEW

CADlink Announces New SignLab Product for Roland Users

Maximize the investment you have made in your Roland™ printer.

SignLab now comes configured specifically to work seamlessly with your VersaWorks™ software!

Features & Benefits for Versaworks® Users

SignLab Version 8 is now also available in a new configuration called **SignLab for VersaWorks™ Edition**. Specifically designed for sign makers using VersaWorks™ software to send print, print and cut jobs to their Roland™ printers and Print and Cut devices.

- Incredible Print, Print & Cut Production Tools!
- Super-size Images
- Best vectorization on the market
- Designed for Print and Cut solutions
- Automatic on screen color management for Versaworks™
- Versaworks™ palette included
- Automatic PDF color management for sending out proofs.
- File > Print to VersaWorks
- Fluid Mask™ (Optional): Incredibly simple masking tool
- Over 75 special effects plug-ins for both vector & bitmap
- Specific photographic image filters
- Complete, professional text composition layout tools including 1100+ fonts
- Instant Replay, automatically apply intricate special effects into your designs
- Plus all the amazing design tools found in our SignLab Print and Cut software package

Be More Profitable!

SL-0800-P-VERSA..... Call for Pricing \$995

Incredible Print, Print & Cut Production Tools!

- ✓ Super Size Image: Unmatched tool for scaling up low resolution images for wide format prints.
- ✓ Best vectorization on the market. Super Size image also enables you to take graphics directly off the internet and turn them into crisp vectors literally in minutes.
- ✓ VersaWorks™ palette included: Easy color matching with the VersaWorks™ swatch (also includes built in swatch creation for additional media).
- ✓ Automatic PDF color management for sending out proofs. Customers see the colors you see!
- ✓ File > Print to VersaWorks: Print directly to Queue A or B.
- ✓ Contour cut: Designed for Print and Cut solutions, no complex setup for cutting or setting of cut paths. Try this in desktop publishing software packages.
- ✓ Automatic on screen color management setting for working with VersaWorks™.
- ✓ Fluid Mask™ (Optional add on): Incredibly simple masking tool that easily removes backgrounds or unwanted parts of an image.
- ✓ Over 75 special effects plug-ins for both vector and bitmap images.
- ✓ Complete, professional text composition layout tools including 1100+ fonts.
- ✓ Amazing photographic image filters.
- ✓ InstantReplay, automatically apply intricately created special effects onto new objects/designs.

SignLab version 8

Crossgrades Discounts Available

From its advanced design engine to its enterprise work flows to its e-commerce features that help sign shops connect to their customers SignLab Software is all about Printing and Cutting in the modern sign business.

SignLab Vinyl

SignLab Vinyl is strongly featured design and production sign software dedicated to vinyl cutting.

Suitable for the new or established sign shop that does not need a full time designer – where designer's duties are split between sign and sign assembly.

SL-0800-P-VINYL Call \$1,600

SignLab Vinyl Pro

SignLab Vinyl Pro is the ultimate sign design and production software dedicated to vinyl cutting.

Developed for professional level sign shops with one or more full-time staff designers where interactivity between 3rd party design applications is a must. Manages significant volumes of complex vinyl cut signage, but limited support for in-house printing of signage.

SL-0800-P-VINPRO Call \$2,400

SignLab Print & Cut

The sign industry's only enterprise level design and production software for sign printing and vinyl cutting.

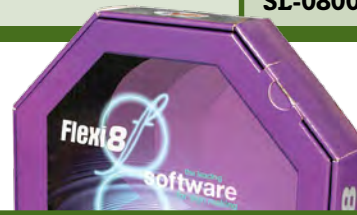

Professional software made for busy shops designing both vector and color raster images, where interactivity between 3rd party applications is important. Get the highest quality from an array of cutters, inkjet, and thermal sign printers with effective production tools to manage large volumes of print & cut signage.

SL-0800-P-PRICUT Call \$3,700

Flexi™ FAMILY v8.6

Flexi8

The industry standard for Sign Making software, SAI's Flexi™ Family 8 continues to offer your Sign Making business innovative tools with very profitable results. By integrating finely tuned technology with years of feedback from our Sign Making partners and users, Flexi™ Family 8 maintains its status as the number one choice for dependable, feature-rich Sign Making software with uncompromising quality. **Available for Mac or PC.**

FlexiSIGN-PRO™

The SAI flagship product, offers the total solution for any sign making business.

FSPRO-8 \$4,295

FlexiEXPERT™

This package is designed for the sign maker who requires advanced vinyl cutting and bitmap editing tools without the need for wide format printing output.

FE-8 \$2,495

FlexiPRINT & CUT™

A brand-new design, scanning and tracing software package with complete cutting output.

FPC-8 \$2,295

FlexiSIGN™

This mid-level sign making package provides exceptional tools to produce high-quality signage without a large initial investment.

FS-8 \$1,695

FlexiLETTER™

This entry-level layout and cutting package features file import and export, full text manipulation and direct drivers for the industry's most popular vinyl cutters.

FL-8 \$995

FlexiDESIGNER™

This design program is intended to be used as a second design-only station.

FD-8 \$1295

FlexiENGRAVE™

This program is for the professional sign maker who requires advanced engraving, editing, serialization, color tracing and many other useful features.

OFENG-8W \$795
(add-on option for Flexi 8)

LED Lighting

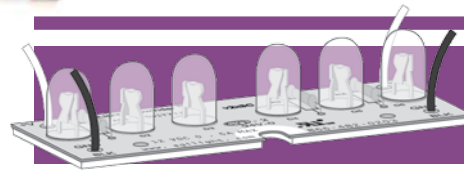

Efficient and Long Lasting Lighting Solutions

TuffRayz

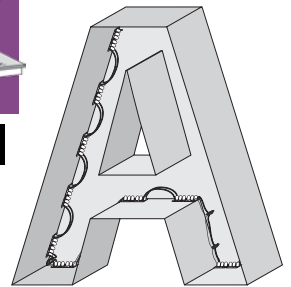

Our #1 Product!

Wind, rain, ice and humidity are no match for AgiLight's new TuffRayz LED modules. Durable & extremely weather-resistant, TuffRayz provide an affordable, energy efficient channel light solution for indoor and outdoor signage.

SideWinder Original

SideWinder Originals are constructed with rounded LED's designed to fill the inside cavity with light, and mounts on the side near the back of the can.*

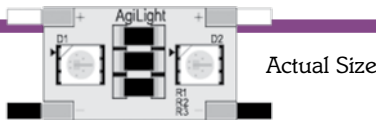

PRODUCT #	DESCRIPTION	PRICE
AGI-TUFFRAYZ-R	TuffRayz Red	\$4.73/ft
AGI-TUFFRAYZ-A	TuffRayz Amber	5.59/ft
AGI-TUFFRAYZ-O	TuffRayz Orange	5.59/ft
AGI-TUFFRAYZ-B	TuffRayz Blue	9.79/ft
AGI-TUFFRAYZ-G	TuffRayz Green	9.79/ft
AGI-TUFFRAYZ-W	TuffRayz White	8.79/ft

PRODUCT #	DESCRIPTION	PRICE
AGI-SW1R050	Sidewinder Orig - RED	\$5.53
AGI-SW1O050	Sidewinder Orig - ORANGE	7.53
AGI-SW1A050	Sidewinder Orig - AMBER	6.65
AGI-SW1G050	Sidewinder Orig - GREEN	10.39
AGI-SW1B050	Sidewinder Orig - BLUE	10.15
AGI-SW1W050	Sidewinder Orig - WHITE	9.31

ThinRayz

At **0.188 inches thick**, ThinRayz's low-profile and ultra-thin form factor allow for even lighting of extremely shallow letters and signs as small as 1.5 inches in depth!

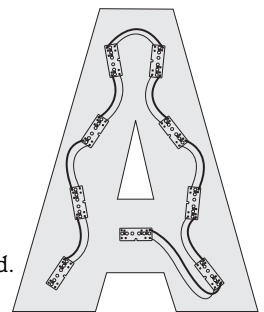

PRODUCT #	DESCRIPTION	PRICE
AGI-SW1RTHINRAYZ	ThinRayz - RED	\$9.59/ft
AGI-SW1ATHINRAYZ	ThinRayz - AMBER	9.93/ft
AGI-SW1GTHINRAYZ	ThinRayz - GREEN	14.92/ft
AGI-SW1BTHINRAYZ	ThinRayz - BLUE	14.52/ft
AGI-SW1WTHINRAYZ	ThinRayz - WHITE	13.19/ft
AGI-SW1WWTHINRAYZ	ThinRayz - WARM WHITE	13.19/ft

SideWinder 165°

SideWinder 165's are constructed with flat LED's designed to disperse the light forward. They mount to the back of the can.*

ThinRayz XTRA

ThinRayz Xtra's low-profile and ultra-thin form factor are the same as the ThinRayz, but with twice the lights in each section.

PRODUCT #	DESCRIPTION	PRICE
AGI-THINRAYZXTRA	ThinRayz XTRA - WHITE	16.79/ft

PRODUCT #	DESCRIPTION	PRICE
AGI-SW1R050-V	Sidewinder 165° - RED	\$5.85

Ballasts

Magnetic HID Ballasts

Advance's SignPRO® line of sign ballasts includes a wide range of options for illuminated sign applications using high intensity discharge (HID) light sources. With special offerings such as F-Can ballasts and core-and-coil ballast kits, Advance's broad HID ballast line offers sign suppliers, manufacturers, and installers a broad range of dependable lighting solutions.

SignPRO is ideal for outdoor venues such as canopies in service stations and parking lots for retail establishments like supermarkets and convenience stores, as well as other applications requiring high intensity discharge (HID) light sources.

- Compact design. Easy to install.
- "72C Series" ballasts feature dual voltage (120/277V) operation and thermal protection for indoor and outdoor use
- Comprehensive kits feature mounting hardware, capacitor, and ignitor componentry. Simplifies

- installation and maintenance
- VAL-U-PAK Plus kits for the most popular Metal Halide and High Pressure Sodium lamps provide a new ballast and top-quality lamp all in one package. Simplifies installation and reduces maintenance/labor costs

CALL FOR DETAILS and PRICING.....

(A wide range of options need consideration – light source, ballast type, kits, etc. – please call for requirements)

Magnetic Ballasts

Advance's SignPRO® magnetic ballasts for T12/HO Rapid Start Fluorescent Lamps deliver the combined benefits of efficient operation, long ballast life, and outstanding reliability. Built to perform under all weather conditions, Advance's family of SignPRO magnetic ballasts offers sign suppliers, manufacturers, and installers a broad range of dependable lighting solutions.

SignPRO is ideal for such applications as backlit signs, channel letters, and building fascias, as well as other applications requiring T12/HO Rapid Start Fluorescent Lamps.

- High-grade steel laminations and vacuum-impregnated copper coils aids heat dissipation and moisture protection.
- Specialized integral anchor tabs. Allows addition of optional customized wiring components

- Corrosion-resistant white-steel casing
- UL Type 2 Outdoor-listed and operation down to -20°F
- UL and CSA-certified. Insures safe and reliable operation

Ballasts

Electronic Fluorescent Ballasts

Advance SignPRO electronic sign ballasts offer the solution-energy savings of up to 20% when compared to magnetic sign ballasts. Replacing the magnetic core is an innovative circuit board that delivers the energy efficiency and high reliability.

- Quieter, cooler operation without sacrificing light output.
- Built tough and fully potted.
- Rapid start circuitry promises full-rated lamp life.
- Delivers dependable starting, down to -20°F.
- Fully-warranted for three years.
- UL and CSA certified.

Poly-Metal™

2-sided Aluminum Sign Panel*

- Factory applied protective film is easy to remove guards against scratches, scuffing, and dirt prior to applying vinyl lettering or paint
- Aluminum laminated on both sides for strength and panel rigidity
- Smooth aluminum surface with white baked enamel wax-free finish
- No surface prep required
- No edge caps or edge treatment required
- Excellent for vinyl letters and graphics, inks or paints
- Reusable - change vinyl graphics with little or no ghosting
- Resists scratching and denting better than MDO, wood core panels and corrugated plastic cores
- Strong, durable, lightweight panel (32lbs.)
- Extruded high density polyethylene core
- Easily cuts and routs and can be "v-grooved" for corners and boxes
- Standard black core provides greater UV resistance
- Lifetime warranty on bond line & 10 year overall warranty

PVC Foam Board*

Sturdy, Lightweight Plastic Sheets

- Expanded PVC foam board with a matte finish.
- Lightweight, durable, chemical resistance, fire retardant capabilities.
- Excellent substrate for point-of-purchase displays and signs, and is the substrate of choice for screen-printing and digital printing. Features a consistently smooth and abrasion resistant surface for easy paint and excellent ink adhesion produces sharp, vivid colors – a printed image of superior quality!
- When using vinyl lettering, the bonding is excellent due to the molecular reaction (vinyl to vinyl) between the lettering and the InteFoam® surface.

INTEPLAST

- It can be thermoformed and has a variety of applications in sign, marine, and graphic arts industries. Can be heat bent, routed laminated, pressure or vacuum formed in a variety of shapes and configuration for those challenging displays shapes or promotional material.

4' x 8' Sheets (priced per sheet)

PVC4x8BK3	3mil (1/8") Black	\$30.00
PVC4x8W3	3mil (1/8") White	28.00
